

## Stop-Starting-Over Sprint — Start Here (RevOps/CRM Edition)

### You're in.

Welcome to the Stop-Starting-Over Sprint — a 14-day implementation sprint to install the **Micro-Correction Loop** so effort carries forward (even when delivery spikes).

### Sprint Dates

Starts: **Mon, March 2, 2026**

Ends: **Sun, March 15, 2026**

---

## Do this now (3 minutes)

Before you close this:

### 1) Pick your track (choose ONE):

- **PIPELINE** (follow-up / reactivation / proposals / next steps)
- **DELIVERY** (close loops / milestones / client updates / reduce thrash)
- **OFFER** (one sentence offer + one simple CTA; no rebuilding)

### 2) Pick your “smallest rep that counts” for Day 1 (choose ONE):

- **PIPELINE:** 10-minute follow-up block **or** 5 reactivation messages **or** 1 “move it forward” proposal message
- **DELIVERY:** ship 1 milestone **or** close 1 open loop (ticket/doc/decision) **or** 1 close-loop client update
- **OFFER:** write the one-sentence offer **or** choose one CTA **or** send offer + CTA to 3 warm contacts  
(*Keep it small. Ship > perfect.*)

### 3) Save your daily check-in format (you'll use this for 14 days):

Result: (observable)

Next time I will: (one change only)

---

## What happens next

1. Check your inbox for your Welcome / Start Here email (arrives within a few minutes after purchase).
  2. That email includes your access details + where to submit check-ins.
  3. Day 1: you ship your first rep and submit your two lines.
- 

## Where access will arrive

- Access + instructions are delivered to the email you used at checkout.
  - If you used PayPal with a different email, check both.
-

## Office Hour (thread-based)

- Office hour is **thread-based** (not a call).
  - Post your rep + two lines by **12:00pm Thursday** in the office hour thread.
  - I'll drop micro-corrections during the **12:00–12:30pm** window (hard stop).
  - Details + dates are inside the Welcome email.
- 

## Rules that make this work

- Ship first. Adjust after.
  - One change only. If you change five things, you can't learn what worked.
  - If you miss a day: don't reset. Run the smallest rep the next day and continue.
- 

## PAGE 2 / 2

### What counts as a “rep”

A rep is the smallest shippable unit that moves your chosen track forward:

- **PIPELINE:** follow-up / reactivation / proposal next step
- **DELIVERY:** milestone / close-loop update / close one open loop
- **OFFER:** one-sentence offer / one CTA / send offer + CTA

**Rule:** one rep → one observable result → one micro-correction.

---

## Support

If you're stuck, reply to the Welcome email with:

Result: \_\_\_ / Next time I will: \_\_\_ (one change only)

...and include your track: **PIPELINE / DELIVERY / OFFER**

---

## If you don't see the Welcome email

- Check Spam/Promotions/Updates
- Search: “Stop Starting Over” or “Sprint”
- If it's still missing after 15 minutes, email [founder@prosperityunleashed.com](mailto:founder@prosperityunleashed.com) with your purchase email and I'll help you immediately.
